About This Game

A new way to play to the incredible classic block game

Shoot the ray to break the blocks and give the pieces the shape that suits you.

Care, every piece has a limit of bricks you can break to sculpt it.

Incredible game in which you will have to change the way you think because the pieces do not rotate. Why are they going to rotate if you can shape them as you want?

Two game modes:

- Levels: 32 levels await you. Do you think you can overcome them all? In the last levels the puzzle is very difficult
- Endless mode: How long and how many lines can you get? The difficulty increases with time.

With Shoottris you will enjoy a new gaming experience in an environment with 3D graphics and spectacular music. We have gone beyond the classic block game, and the result is wonderful.
